

VERI-GREEN

Lawn Food

29-0-3

5,000 sq. ft. #16004

15,000 sq. ft. #16005

Veri-green Lawn Food is an ideal balance of fertilizer for today's high quality turf requirements. This product contains slow-release Nitrogen, which is unaffected by rainfall and emperature, reducing top growth and turf clippings. Veri-green can be used on all types of grass and provides a continuous nutrient release, feeding the lawn for up to 3 months. This quick greening formula contains Iron for a deep-green color, and it's uniform particle size enables even distribution.

WHEN TO APPLY:

Apply Veri-green spring through fall when grass is actively growing on established lawns.

HOW TO APPLY:

Apply to a dry lawn before a rain or water in after application. If the lawn is under stress from lack of rainfall, disease or heat, or if air temperatures are 85° or higher, do not apply this product, as turf injury may occur.

- Feeds and Greens Lawns
- Helps Lawns Resist Drought and Disease
- Contains Iron for Maximum Greening
